Ashique Bin Iqbal

Results-driven IT professional with a diverse background in news media, legal, and agribusiness sectors. Seeking a challenging role as a Software Engineer to leverage my interdisciplinary knowledge and skills in data analysis, research, project management, and leadership. Committed to continuous skill development and delivering exceptional results in software development projects.

EXPERIENCE

Executive Editor, The Daily Chandpur Kantha, Dhaka, Bangladesh

January 2018 - Present

- Lead the online section of a regional newspaper as the Executive Editor, overseeing content development, web development, and digital marketing.
- Conduct editing, data analysis, visualization, and monitoring evaluation of online news using various data tools and systems to spearhead efforts to enhance transparency in news publications, ensuring accurate and reliable information for readers.
- Drive organizational progress through continuous research and development in policy and implementation, developing sustainable business models.

Bureau Chief, The Daily Chandpur Kantha, Dhaka, Bangladesh

February 2010 - January 2018

- Led a project to develop a modern, scalable website for the organization, enhancing its online presence and user experience.
- Recommended prioritizing the development of the online version to ensure the organization's future sustainability, leading to the establishment of a dedicated online department.

Data Analyst (Self-Employed), Dhaka, Bangladesh

June 2015 - Present

- Completed several data analysis and research projects for the national and local elections, providing valuable insights to the Election Commission of Bangladesh.
- Contributed to multiple AI and machine learning projects, collaborating with interdisciplinary teams to develop innovative solutions.

Coding Educator

BrightChamps, International Ed-tech Start-up

January 2022 - March 2022

- Educated young minds by teaching coding, robotics, and artificial intelligence across more than seven countries.

R&D Specialist, Intercom Trade Intl, Dhaka, Bangladesh

June 2016 - August 2016

- Managed an IT-based project focused on content development, web development, and research and development.
- launched an online educational website, enhancing user experience and accessibility.
